PROJECTS

Rick Morty UTN
August - 2023

Project carried out for the first section of the diploma in "Full Stack Web Programmer" at the UTN university. In this project I had to consume the Rick & Morty API, create routing for navigation with React Router and be able to filter the characters based on certain characteristics (REACT , CSS).

Repository *: https://github.com/FranciscoMeglia/Rick-Morty-UTN*

Tip Calculator FTM
June - 2023

Challenge of the FrontEnd Mentor page consisted of making a tip calculator in which the user can enter the number of diners and the percentage of tip to pay (HTML , SASS , JAVASCRIPT).
